

# Display Advertising in *Supply Line*

Camera-ready copy is preferred, but the MVPA can make arrangements for the layout and typesetting of your display ads. Once your ad has been typeset, minor changes can be made for future issues of *Supply Line*. Payment for the ad is expected prior to publishing.

MVPA can accept disk and electronic files on CD, DVD or 3.5" floppy, all in PC format of Quark Xpress 3.3, 4.1, 5.0, 6.0, MS Publisher 2000, MS Word with pictures; tif, jpg, pdf or bmp files, or you may send the entire file as a jpg or pdf (150+ DPI). Please include hard copy (printed) with every ad.

Xerox or other copies of display advertising are NOT of high enough quality to be considered camera-ready. Please have your typesetter run out an extra copy of your original typeset ad for *Supply Line*. Facsimile copies are also not considered camera-ready. You may use the fax number to send rough layouts or corrections but please mail or express ship your camera-ready advertising copy.

Photographs and advertisements provided in camera-ready halftone or Velox form should be at a screen value of 100 lines per inch or at a 150 - 300 dpi resolution.

All advertising, accompanied by payment in US Funds, must be sent to MVPA, P.O. Box 520378-ADS, Independence, MO USA 64052-0378, shipping: 3305 Blue Ridge Cutoff, Independence, MO 64055. No advertising will be accepted if mailed directly to the editors of *Supply Line* or *Army Motors*.
